

The Graduate Interdisciplinary  
Water: Systems, Science, & Society  
Program Presents

# A CIVIL ACTION

Based on the real-life story of toxic waste in the water supply of Woburn, Massachusetts. Be sure to look for the character of George Pinder, now a member of the WSSS external advisory committee.

This is a great movie for a WSSS Halloween.

Friday, October 31, 2008

4:00–5:30 PM

Mugar 200, Fletcher School  
Medford Campus

WSSS is a cross-university certificate program that trains students in interdisciplinary management of water resources while they complete the graduate degree requirements in their home departments.
